

PERFORMANCE LATEX

GREATER CONTROL FOR GREATER DURABILITY

Our uniquely formulated Performance Latex is crafted from the finest raw materials to deliver a stronger, more consistent product. This provides the pressure relief, breathability and support expected from latex foam – in a more cost-effective option. Because we can control our process even more precisely, we’re able to provide a broader range of firmness levels and offer a customizable sleep experience with additives like gel, copper, aluminum and graphite.

With Performance Latex, you can sell a better night’s sleep to every customer.

Manufactured using the finest materials and Perpetua™, our proprietary continuous-pour process

Reliable, high-quality performance at a value

Tighter, consistent cell structure for a durable product

More resistant to breakdown from sunlight, oxygen, ozone and heat

Same pressure-relieving, supportive comfort, with slightly less bounce

Delivering comfort in 6 levels of firmness:

Firmness Level	Ultra Soft	Soft	Med Soft	Medium	Firm	Extra Firm
ILD	11	13	19	23	31	35

We are dedicated to providing the mattress industry with the highest quality in sustainably sourced American-made latex cores, toppers, mattresses and sleep accessories. Our company never settles — on customer service, on quality or on comfort. That’s why we invented, patented and continue to perfect Perpetua, our proprietary latex continuous-pour process. Our advanced process is based on science that’s leading the industry and specially designed for a better night’s sleep.

Each Mountain Top Foam Product Family Is Guaranteed To Deliver:

Responsive comfort, contouring to the body's movement throughout the night

Enhanced pressure relief on sensitive areas

Uplifting support for a weightless, unsinkable feeling

Breathability for the perfect sleeping temperature

Resistance to breakdown and body impressions for long-lasting durability year after year

An eco-friendly choice

The Seven Zones of Comfort

Our proprietary Seven-Zone Design creates the optimal combination of pressure relief and support. With our design, your mattresses will deliver increased support in the much-needed lumbar region, while gently enveloping areas like the shoulders, hips and thighs.

Our Mono-Zoned Option

Our Mono-Zone Design was created for those who prefer a consistent feel across the entire surface. It delivers incredible comfort and support from head to toe.
